POST- DOCTORAL RESEARCH EXPERIENCE

- | | | |
|-----------------------|--|------------------|
| 01.09.2018-present | Post-Doctoral Researcher Centre for Addiction and Mental Health (CAMH)
<u>Topic:</u> Characterizing clinical, behavioral and cortical morphology heterogeneity in autistic females
<u>Supervision:</u> Dr. Meng-Chuan Lai. | Toronto, Canada |
| 02.02.2023-30.06.2024 | Post-Doctoral Researcher Laboratory of Psychology and Neurocognition (LPNC)
<u>Topic:</u> Participation and diagnostic pathways of autistic children and adolescents: a study based on the childhood disability registry and perinatal observatory of the Isère and Savoie counties.
<u>Supervision:</u> Pr. Monica Baciú et Dr. Marcella Perrone-Bertolotti. | Grenoble, France |
| 02.01.2023-01.02.2023 | Research Engineer iMind –Le Vinatier Hospital
<u>Topic:</u> Parenthood in autism: a participatory study examining the divergent perspectives of autistic adults and professionals in health, education and judicial settings regarding parenthood in autism.
<u>Supervision:</u> Pr. Caroline Demily. | Lyon, France |

EDUCATION

- | | | |
|-----------------------|--|---|
| 01.10.2018-25.11.2022 | PhD in Cognitive sciences, Psychology and Neurocognition. LPNC
<u>Topic:</u> Predictive mechanisms during the processing of socio-emotional stimuli in autistic adults.
<u>Supervision:</u> Pr. Martial Mermillod (LPNC), Dr. Marie Gomot (iBrain, INSERM/University of Tours). | Univ.Grenoble Alpes
Grenoble, France |
| 22.08.2022-06.11.2022 | PhD mobility. Cognitive Neuroscience and Computational Psychiatry Lab
<u>Topic:</u> Training in SPM (DCM).
<u>Supervision:</u> Pr. Marta Garrido | Univ. of Melbourne
Melbourne, Australia |
| 2017-2018 | Master (2nd Year) – Neuropsychology & Clinical Neuroscience
<u>Topic:</u> Pilot behavioral study of the emotional proactive brain in euthymic bipolar patients.
<u>Supervision:</u> Pr. Martial Mermillod (LPNC), Pr. Mircea Polosan (GIN).

<i>Additional research training:</i>
<u>Topic:</u> Behavioral and clinical sex differences in autism
<u>Supervision:</u> Dr. F. Cazalis | Univ.Grenoble Alpes
Grenoble, France

Institut des Systèmes
Complexes, Paris,
France |
| 2016-2017 | Master (1st Year) – Psychology, Neuropsychology
<u>Topic:</u> Standardization of a Socio-Emotional Development Assessment Battery: Exploring Sex/Gender Differences.
<u>Supervision:</u> Dr. Nathalie Fournet (Université Savoie-Mont-Blanc) & Dr D. Bastard-Rosset | Univ. Savoie Mt Blanc
Chambéry, France |
| 2014-2016 | Bachelor in Psychology | Univ. Paris 8,
Paris, France |
| 2012-2013 | CAPA-SH
Certificate of professional aptitude for specialized aids, adapted teaching and disabled student schooling (Certification to be a licensed teacher for students with special needs) | IUFM
Bonneville, France |
| 2007-2008 | Master's equivalent
Certificate in Primary Education - Certification as a primary school teacher. | IUFM
Bonneville, France |
| 2003-2006 | Master (1st) equivalent
Art and Culture studies | Univ. Nîmes, France /
Univ. of Malta, Malta |
| 2001-2003 | Preparatory classes for engineering school | UTBM
Belfort, France |

RESEARCH PROJECTS AND COLLABORATIONS

2026	Use of specific interests in emotion regulation in autistic females without intellectual disability. Role: co-investigator (project not started yet; ethic submission in progress) PI : Dr Julie Ribeyron (Laboratoire Psychologie et Processus de Changement, Paris, France).
2025-present	Informing heterogeneity in autistic females. Investigation of the neurofunctional and behavioral profiles of autistic females using normative modeling. Role: post-doctoral researcher/PI Supervisor: Dr M.-C. Lai (CAMH, Toronto, Canada). Tasks: project development and grant writing, data analysis.
2025-present	Recalibrating Autism Measures for Sex and Gender Equity using a participatory approach. Role: co-investigator PI: Dr. M.-C. Lai (CAMH, Toronto, Canada). Tasks: project development & grant writing (in collaboration).
2025-present	Experience of autistic women age 40+: a qualitative study. Role : collaborator (participation in paper writing) PI : Samara Wolpe (University of Los Angeles California, USA), and Dr Ingrid Tien (UCLA/CAMH, USA/Canada). <i>Paper in preparation.</i>
2025-present	Adapting ACT and DBT therapy to autistic people using a participatory framework. Role: collaborator PI: Dr. M.-C.Lai, L. Man (CAMH, Toronto, Canada). Task: contribution to adaptations ; co-facilitator in the advisory board ; scientific communication (abstract and paper co-writing, oral presentation).
2025-present	Impact of biological sex on the diagnostic process in autism in France. Role: associated investigator PI: Dr. L.-A. Sapey-Triomphe (Lyon Neuroscience research Centre - CRNL, Lyon, France). Tasks: project development and writing, ethics, recruitment (all in collaboration).
2025-present	Autism and cognitive reflection – Role: collaborator PI : Dr Laurent Bègue-Shankland (Laboratoire Interuniversitaire de Psychologie, Grenoble, France). <i>Paper submitted in Research in Autism (Last author).</i>
2024-present	Reappraising cognitive tasks with autistic perspectives. Role: Delphi panel member PI: Dr. M.-C. Lai , M. Alexandrovski (CAMH, Toronto, Canada). Tasks: contribution to meetings and discussions on tasks; participation in abstract and manuscript writing
2024-present	Validation of the French version of the Girl Questionnaire for Autism Spectrum Condition – Role: scientific lead PI: Pr. C. Dondé-Coquelet (University Hospital Grenoble & Grenoble Neuroscience Institute - GIN, Grenoble, France). Tasks: project development, writing & ethics (in collaboration), online survey conceptualization, participants' recruitment, student supervision
2024-present	Adapting the city to the sensory needs of autistic people – Interdisciplinary and participatory research aiming at developing a sensory evaluation methodology for urban environments, tailored to the sensory and cognitive characteristics of autistic individuals of all the spectrum. ANR project. Role: consortium member PI: Dr. M. Pieron (Integrative Neuroscience and Cognition Center - INCC, Paris, France). Tasks: project revision, scientific communication.
2024-present	Exploring complex situations of autistic adults in inpatient units through multiple dimensions and a participatory approach. Role: member of the steering committee PI: Dr P. Boiroux, Dr. D. Boucaud Maitre and Pr. C. Demily (iMind, Lyon, France). Tasks: participation to meetings and feedback.
2023-present	Neural specificities of predictive processes in cognitive flexibility tasks in autistic males and females – Investigating the neurofunctional underpinnings of predictions in the context of emotional flexibility in autistic males and females. Role: scientific lead PI: Pr. M. Baciú (LPNC, Grenoble, France). Tasks: project development and writing, ethics, clinical trials registration, financing, tasks' development, participants' recruitment, data interpretation, student supervision (in collaboration with E. Cousin), scientific communication.
2021-present	Parenthood in autism: perception and needs - Participatory research project investigating the diverging perspectives between autistic adults and professionals on autistic parents and their needs. Role: associated investigator and scientific lead PI: Pr. C.Demily (iMind, Lyon, France). Tasks: project development (in collaboration) and writing, ethics, online survey conceptualization, participants' recruitment, data interpretation, scientific communication.
2022-2025	Investigating diagnostic pathways and school participation in autistic children and teenager of Savoie and Isere counties. Role: post-doctoral researcher Supervisors: Pr. M. Baciú & Dr. M. Perone-Bertolotti PI: Dr. A.Ego (INSERM CIC1406, Grenoble, France). Tasks: data collection (in collaboration), data analysis and interpretation, scientific communication, writing.
2018-2022	Predictive brain and face processing in adult autistic males and females – Role: PhD student PI and supervisors: Pr. M. Mermillod (LPNC Grenoble, France) and Dr. M. Gomot (iBrain, Tours, France). Tasks: project development and writing, ethics, financing, tasks development, participants' recruitment, data collection, data analyses, data interpretation, communication.

COMPETITIVE GRANT WRITING AND RESEARCH FUNDING HISTORY

- | | |
|-----------|--|
| 2025 | 1. Project – Recalibrating Autism Measures for Sex and Gender Equity. CIHR funding 696 544 CAD (~443 620 euros).
Role: co-author and co-applicant |
| 2023-2024 | 2. Project - Neural specificities of predictive processes in cognitive flexibility tasks in autistic males and females - <ul style="list-style-type: none"> • Carnot Institute: 25,000 €; Role: scientific initiator and lead author of the proposal (named applicants: senior researchers due to eligibility rules M. Baciú & M. Mermillod). • CERCOG Call for proposal Collaboration and functioning: 6,400 € - Role: PI • CERCOG Call for proposal Initiation: 3,558 € – Role: PI |
| 2022 | 3. Project: Gender and sensory perception in autism and neurodevelopmental disorders. Co-Design and organization of a science-and-society event on gender and sensory perception in neurodevelopmental conditions with the Club Autism et Vision (INCC; Paris, France). SFR Santé et Société, Grenoble – Research dissemination & knowledge translation – 1,000 € . Role: scientific initiator and lead author of the proposal (named applicant: senior researcher M. Mermillod) |
| 2019 | 4. Project: Predictive brain and face processing in adult autistic males and females
Pôle Grenoble Cognition – 2,000 €
Role: scientific initiator and lead author of the proposal (named applicant: senior researcher L. Vercueil) |

COMPETITIVE AWARDS AND FELLOWSHIPS

- | | |
|-----------|--|
| 2025 | 1. Autistic Researcher Travel Award – International Society for Autism Research (INSAR) – \$1,500 |
| 2024 | 2. Nominated by the CNRS for the Women's Impact Award – Falling Walls 2024 ; Selected by Falling Walls as 1 of the 7 finalists (among 83 nominated internationally by research institutes) |
| | 3. Canadian Institute for Health Research Post-doctoral Fellowship – 70,000 CAD /year for 3 years. Rank 14 th on 90 in competition (over all Canada) – starting from 2024-09-01 |
| | 4. Womenmind 2024 Postdoctoral research Award – <i>Declined the 60,000 CAD due to acceptance of CIHR.</i> |
| 2023 | 5. University Grenoble Alpes Thesis Prize (1 of the 6 academic prizes recipient among 684 PhD graduates) – 1,500 € |
| 2022 | 6. Young Talents Award for Women in Science – L'Oréal - UNESCO Foundation, France (1 of the 30 laureates among more than 700 candidates) – 15,000 € |
| | 7. Mobility Grant CBH Graduate school (ANR-17-EURE-003) – University Grenoble Alpes, France – 3,050 € |
| | 8. Mobility Grant IDEX – University Grenoble Alpes, France – 1,600 € |
| 2018-2022 | 9. PhD Fellowship – French Ministry of Higher Education and Research (Disability support program), France |

SUPERVISION

Since the beginning of my PhD, I have supervised several students. This supervision included regular guidance and meetings, introduction to research topics, training in data analysis using R for some students, joint development of certain tasks, training in data acquisition, guidance for Master's thesis writing (defining research questions, theoretical orientation) and proofreading, as well as preparation for final oral defenses. While I served as the primary supervisor during my postdoctoral work, during my PhD, this supervision, although similar in nature, was carried out in the role of co-supervisor.

Thesis

- | | |
|-----------|---|
| 2025-2026 | 1. Elisa De Taevernier, Université de Rouen. Adaptation and validation of the fGQ-ASC. (Medical Thesis in Public Health). Co-supervisor |
| | Master 2nd year - Research |
| 2025-2026 | 2. Delphine Treffot, University Grenoble Alpes. Predictive coding and flexibility in autism, using fMRI. Principal supervisor |
| 2024-2025 | 3. Aline Virot, University Grenoble Alpes - fMRI study of the activity of the predictive networks in autistic males and females during social and non-social flexibility tasks. Principal supervisor |
| | 4. Orane Ouassa, University Grenoble Alpes - fMRI study of the activity of the predictive networks in autistic males and females during an emotional flexibility task. Principal supervisor |
| 2021-2022 | 5. Emma Torija, University Grenoble Alpes. Predictive brain and flexibility in autistic adults. Co-supervisor. |
| | 6. Yoann Bennetot, University Grenoble Alpes. Flexibility during the processing of socio-emotional stimuli in autistic adults. Co-supervisor. |
| | 7. Antoine Jaffiol, University Grenoble Alpes. Emotional proactive brain in bipolar disorder. Co-supervisor. |
| | 8. Margot Fombonne, University Grenoble Alpes. Emotional proactive brain in autism. Co-supervisor. |
| | 9. Morgane Bordet, University Grenoble Alpes. Socio-emotional flexibility in autistic adults. Co-supervisor. |

Master 2nd year - Clinical

- 2022-2023 10. Marion Chabert, University Grenoble Alpes. Identifying the factors influencing scholar and social participation in autistic children using structural equation modeling. Principal supervisor.

Master 1st year

- 2025-2026 11. Alizée Ludge, University Grenoble Alpes. Neurofunctional underpinnings of predictive processing during flexibility tasks in autism.
- 2023-2024 12. Aline Virot, University Grenoble Alpes - fMRI study of the activity of the predictive networks in autistic males and females during social and non-social flexibility tasks. Principal supervisor.
13. Orane Ouassa, University Grenoble Alpes - fMRI study of the activity of the predictive networks in autistic males and females during an emotional flexibility task. Principal supervisor.
- 2020-2021 14. Valentine Cuisinier, University Grenoble Alpes - Spatial frequency processing during visual recognition in autistic adult. Co-supervisor.
- 2018-2019 15. Margot Fombonne, University Grenoble Alpes. Emotionnal attentional blink in autism. Co-supervisor.

Bachelor

- 2020-2021 16. Perrine Porte – EEG training. Principal supervisor

JURY

PhD Examiner

- Sep. 2024 1. Soline Burckard, Neurospin, Paris France. Cortical sulcation and autism symptomatology: MRI studies

Master Jury

- Juin 2025 2. Delphine Treffot, M1 Neuropsychology & Clinical Neuroscience, University Grenoble Alpes, France. Autism , predictive brain and flexibility.
- Juin 2024 3. Cynthia Cohen, M2 Neuropsychology & Clinical Neuroscience, University Grenoble Alpes. Study of implicit and explicit metacognitive processes of students diagnosed with ASD through their questioning in class
4. Morgane Pires, M2 Neuropsychology & Clinical Neuroscience, University Grenoble Alpes. Visual perspective-taking: A case study of autistic children with intellectual disability
5. Cynthia Gilibert, M2 Child Neuropsychology, University Grenoble Alpes. Visual perspective-taking in Autism Spectrum disorder
6. Enola Boisseleau, M2 Neuropsychology & Clinical Neuroscience, Toulouse III University. Visual sensory research in adolescents with ADHD or ASD: A pilot study.
- Juin 2023 7. Orlane Berric, M2 Child Neuropsychology, University Grenoble Alpes. Development of an experimental tool for non-semantic recognition of emotional facial expressions in children with Autism Spectrum Disorder
8. Elise Courbis, M2 Child Neuropsychology, University Grenoble Alpe. Development of a tool to assess emotion recognition abilities in context among autistic children.
9. Pauline Reynouard, M2 Child Neuropsychology, University Grenoble Alpes. Development of an experimental tool for non-semantic recognition of facial emotions in neurotypical children and children with autism spectrum disorder
10. Purghe Lola, M2 Child Neuropsychology, University Grenoble Alpes. Recognition of emotional facial expressions in children with Autism Spectrum Disorder
11. Jeannie Meyreand, M2 Child Neuropsychology, University Grenoble Alpes. Evaluation of the perception of emotional facial expressions in Autism Spectrum Disorder: Towards an adapted methodology
- Juin 2021 12. Gael Galindo, M1 Research in Psychology, University Grenoble Alpes. Link between theory of mind and visual perspective-taking based on autistic traits in a neurotypical adult population.

TEACHING (> 230 HOURS IN HIGHER EDUCATION)

- 2025 **Autism in females** – 3.5h class for the Inter University Diploma Autism. **University Savoie Mont-Blanc (France)**.
- Autism Research** – Research Method Guest Talk (1h): Undergraduate course of Dr Travis E. Hodges. Department of Psychology & Education, Neuroscience & Behavior Program, **Mount Holyoke College, Massachusetts (USA)**
- 2024 **Autism in females: challenges and resources in everyday life**, Lecture (3h), CAS Autisme. **University of Geneva (Switzerland)**
- 2022-2024 **Access to Parenthood** - University Diploma Family Peer Support (1.5h/year; co-lecturer with Marine Dubreucq). **Lyon 1 University (France)**
- 2021-2023 **Parenthood in autism** - University Diploma Autism Spectrum Disorders (1.5h/year; co-lecturer with Marine Dubreucq). **Lyon 1 University (France)**

2023	Autism in females: history, characteristics and support. Video module for the autism training platform " <i>Plateforme Universitaire de Formation A Distance au Spectre de l'Autisme</i> » PUFADSA. University of Clermont-Ferrand (France) . The PUFADSA is funded by the French higher education and research Ministry and the « Caisse Nationale de Solidarité pour l'Autonomie ». It is part of the "Plan Autisme", and aims at training 5000 professionals working with autistic individuals.
2021-2023	Autism: research advances , Lecture, Master in Child Neuropsychology. University Grenoble Alpes (France) . (1h/year)
2022	Differential Psychology and Psychometry , Lecture (4h) and practical work (84h), Bachelor in Psychology. University Grenoble Alpes (France) . (84h)
2021	Statistics , Practical work with R, Master in Child Neuropsychology. University Grenoble Alpes (France) . (24h)
2018-2021	Cognitive Psychology , Practical work, Bachelor in Psychology. University Grenoble Alpes (France) . (56h)
2018-2019	Research Methodology , Practical work, Bachelor in Psychology. University Grenoble Alpes (France) . (56h)
2010-2016	Teacher in special need education . SEGPA (Margencel, France) & IME Les Cygnes (Thonon-les-Bains, France)
2008-2010	Primary school teacher . Haute-Savoie (France)

GENERAL AUDIENCE, KNOWLEDGE USER PRESENTATIONS AND ROUNDTABLES (INVITED TALKS)

>30 invited talks (from 15 minutes to one day lecture) and roundtables (2018–2025) on autism in females, clinical practice, participatory research, and women in science, delivered to healthcare professionals, and the general public in France, Switzerland, Canada, and Lebanon. Several talks were recorded and disseminated online, with individual videos reaching up to 74,000 views on YouTube.

2025	1. Understanding autism in females: characteristics and clinical challenges. Lebanese psychological association. Leban. Online. 2. Five ways to support autistic patients (co-presenting with Louisa Y. Man). ECHO-Autism: Differential Diagnosis series, hosted by the Transforming Autism Care Consortium (TACC) and McGill University, Canada. Online. 3. Autisme au féminin: des spécificités sociales au camouflage et ses conséquences (Autism in females: from social specificities to camouflaging and its consequences) Clinico-scientific symposium of the Autism Spectrum Disorders Service). Lausanne University Hospital (CHUV), Lausanne, Switzerland. Online.
2024	4. Santé mentale des femmes autistes: who cares ? (Mental health of autistic females: who cares ?). Autism in females symposium. Aix-en-Provence, France. Online 5. Participation scolaire des enfants et adolescents autistes (School participation of autistic children and teenagers). Grenoble Alpes Hospital, France. Online 6. Briser les mythes: à la découverte des femmes autistes (Shattering myths: discovering autism in females). Lecture for the Grand Autism Symposium by Ideereka, France. Online. 7. Autisme au féminin: quelles spécificités? (Autism in females: which specificities?). Talk at the Alpes Isere Hospital. Saint Egrève, France. 8. Autisme au féminin: chassons les idées reçues (Autism in females: dispelling common misconceptions). Aspie friendly lecture. Clermont-Ferrand, France.
2023	9. Différences liées au sexe dans la perception visuelle des visages chez les adultes autistes et non autistes: influence des mécanismes prédictifs ? (Sex differences in face visual perception in autistic and non-autistic adults). Scientific and participative mediation "Sex/gender and sensory perception in neurodevelopmental disorders". Paris, France. 10. My book on autism in females. Talk on my book for "Aspie-friendly University". France. Online. 11. Women in science. Invited for the roundtable on women in science for the biotechno forum. Grenoble, France. 12. Comprendre l'autisme au féminin (Understanding autism in females). Interview for Intensément podcast. France. Online 13. Comprendre l'autisme au féminin (Understanding autism in females). Interview for Benjamin Lubszynski. France. Online 14. Autisme au féminin: dépasser les lieux communs avec l'approche scientifique. (Autism in Women: Moving Beyond Commonplaces with a Scientific Approach.). Talk for Autisme Genève, Geneva, Switzerland. 15. Autisme: et les filles...? (Autism: and females..?). Talk for primary school teachers and special need teachers. Paris, France. 16. Les filles et l'autisme: moins nombreuses? moins visibles? Mythes et réalités (Autism in females: fewer? less visible? Myths and reality). Talk for the self-regulation system day, France. Online. 17. Autisme au féminin (Autism in females). One day lecture for "Autisme Suisse romande", Lausanne, Switzerland. 18. Autisme au féminin (Autism in females). Talk for Asperger Lorraine, Metz, France. 19. Femmes autistes: les oubliées (Autistic females: the forgotten ones?). Workshop "Science infuse" organized by the library of University Grenoble Alpes, Grenoble, France.
2022	20. L'autisme au féminin (Autism in females). Talk for Parlons d'Autisme, Neuchâtel, Switzerland.

- | | |
|------|---|
| | 21. Autisme au féminin (Autism in females). Talk for Autisme Bassin Lémanique, Margencel, France . |
| | 22. L'autisme au féminin (Autism in females). One day training for the organization Autisme Suisse Romande, Neuchâtel, Switzerland . |
| | 23. Lacroix, A., Dubreucq, M.. Devenir parent quand on est autiste: des challenges supplémentaires ? (Becoming parent when you are autistic: additional challenges ?). Webinar iMind, France . Online. |
| 2021 | 24. Lacroix, A., Leignier, S.; Lagasse, S.; Perrier, C.-C., Roure, R. (2021). La question identitaire chez les femmes autistes adultes (Identity in adult autistic females). Webinar for the Groupement National des Centres Ressources Autisme (GNCRA), Grenoble, France . |
| | 25. La fatigabilité des personnes autistes (Fatigability in autistic individuals). Roundtable for the SpielAct Festival, Genève, Switzerland . |
| 2019 | 26. L'autisme au féminin: profil et diagnostic (Autism in females: profile and diagnostic). Talk for « Femmes avant tout » at the French National Assembly, Paris, France . |
| | 27. État des lieux de la recherche sur les femmes autistes (State of the art in research on autism in females). Talk for Autisme 22, Saint Brieuc, France . |
| | 28. Filles et femmes autistes, de l'ombre à la lumière (Autistic girls and women: from shadow to light). Talk at the Haute École de Travail Social et de la Santé, Lausanne, Switzerland . |
| 2018 | 29. L'autisme au féminin durant l'enfance: profil et dépistage (Autism in females in childhood: profile and screening). Talk for the 2nd congress of "L'étoile d'Asperger", Toulouges, France . |
| | 30. L'autisme au féminin: quelles spécificités ? (Autism in females: which specificities?). Talk for the Centre d'Évaluation Savoyard de L'autisme, Chambéry, France . |
| | 31. L'autisme au féminin, que dit la recherche ? (Autism in females: what does the research says?)Talk for Autisme Genève, Geneva, Switzerland . |
| | 32. L'autisme au féminin: état des connaissances et stratégies d'accompagnement scolaire (Autism in females: state of art and school support strategies). Talk at Haute École de Travail Social et de la Santé, Lausanne, Switzerland . |

INVITED BROADCAST INTERVIEWS

- | | |
|-------------------------|---|
| 2026.04.03 | 1. Being a female and receiving a diagnosis in adulthood. Podcast Electrons Libres by Claire Ricard. |
| 2023.09.10 | 2. Autism in females, Interview for the French radio France Bleu Isère |
| 2023.09.08 | 3. Being a female and autistic, Podcast "Troubles dans le spectre". iMind Research centre Lyon. 50 minutes |
| 2023.06.12 | 4. Autism in females: presentation of how autism present in females and why they are underdiagnosed. Presentation of my book., The program is the 13/14 by Bruno Duvic, on the French national radio France Inter - 10 minutes |
| 2023.05.16 | 5. Autism in females: presentation of how autism manifest in females, what are their specificities and presentation of my book, Invited for the broadcast "L'instantané" by Aurélie Massait-Salamanca, on the French regional channel France 3 Alpes . 10 minutes |
| 2023.05.12 | 6. Autism in females: sex ratio, diagnostic, research, Interview for the French radio Vivre FM . 45 minutes |
| 2023.04.01 & 2023.04.02 | 7. My fMRI research on socio-emotional flexibility in autistic males and females and my book on autism in females, Broadcast features - Journal of France 3 Alpes (French television). 2 minutes. |
| 2023.03.03 | 8. My research on autism in females, Podcast "Echos des sciences" . Subject: "Femmes de tête". 20 minutes. |
| 2022.10.12 | 9. Award For women in science and my research in the visual perception in autism., Interview for the French radio France bleu Pays de Savoie for the journal of 8:00. 5 minutes. |

INVITED TEXT INTERVIEWS

- | | |
|------------|--|
| 2025.10 | 1. Autism: are the differences between males and females existing at birth? Interview by Killian Dumas-Baudron. iMind Blog (France) |
| 2025.06 | 2. Autisme et sport (Autism and sport), Interview by Aurore Braconnier. Sport et Vie – special issue N°62 . (French national journal) |
| 2025.04.02 | 3. Pas moins, pas mieux, juste différent: changeons de regard sur l'autisme. (Not less, not better, just different: rethinking autism). Interview by Laure Dasinières. Slate.fr |
| 2023.08.31 | 4. "3 questions à Adeline Lacroix. Les femmes autistes sont sous-diagnostiquées." (Autism in females is under-diagnosed. 3 questions to Adeline Lacroix), Interview by M.Olano for Sciences Humaines (French national journal) |
| 2023.08.07 | 5. "Autisme au féminin" (Autism in females), Interview from E. Bozon-Verduraz for Le Dauphiné Libéré (French regional journal) |
| 2023.07.07 | 6. "Pendant longtemps, on a exclu que les femmes pouvaient être autistes" (For a long time, it was ruled out that women could be autistic.), Interview for Elle (French national journal) |

- | | |
|------------|--|
| 2023.06.19 | 7. "Adeline Lacroix, son combat face à l'autisme au féminin" (Adeline Lacroix, her fight for autistic females) Portrait: Ils font bouger votre région (Portrait: personalities who boost your region), Interview by S.Falcoz for Le Dauphiné Libéré (French regional journal) |
| 2023.03.31 | 8. "Qui sont les aspergirls?" (Who are the aspergirls?), Interview by Christelle Gilquin for Femmes d'aujourd'hui (Belgium national journal) |
| 2022.10.20 | 9. "Une chercheuse originaire du chablais récompensée pour son travail sur l'autisme" (A researcher from the Chablais region wins an award for her work on autism). Interview on my research and my award., Interview by M. Dumur for Le messager (French local journal) |
| 2022.10.14 | 10. "Une chercheuse récompensée pour ses travaux sur l'autisme" (A researcher wins an award for her work on autism). Interview on my research and my award., Interview by S. Falcoz for Le Dauphiné Libéré (french regional journal) |
| 2021.04.02 | 11. "Les communes s'illuminent en bleu pour la journée de l'autisme" (Communes light up in blue for Autism Day). Interview on my journey as an autistic woman doing research on autism., Interview by B. Dorat for Le Dauphiné Libéré (French regional journal) |
| 2019.03.31 | 12. "En neurosciences, les choses progressent" (In neuroscience, things are improving). How neurosciences benefits to autism research., Interview by I. Calendre for Le Dauphiné Libéré (French regional french) |

OTHER SCIENTIFIC ACTIVITIES

Scientific expertise

- | | |
|----------------------|---|
| 2021-2024 | Ad-hoc Reviewer (~5 manuscripts/year) for Scientific Reports, Autism, Autism research, Molecular Autism, Journal of Autism and Developmental Disorder, Brain Research, Visual Cognition, Frontiers in Global Women's Health, Neuropsychiatric Disease and Treatment, Annales Medico-Psychologiques |
| 2024-present
2023 | Ad-hoc reviewer for the International Society for Autism Research (INSAR) conference |
| | Committee Member of the <u>research focus group</u> for the inter-ministerial delegation for the national autism strategy (2023 – 2027), with PAARI organization |
| 2021 | Invited Member of the scientific committee for the 2 nd national conference on autism. November 19 – 20 2021. Bern, Switzerland. |
| 2019 | Reviewer for Autism Europe Conference |

Scientific networks & event organization

- | | |
|------------------------------|--|
| 2024-present | Member of the work team "Participatory research school" – organization of the first participatory research school in Autism and Neurodevelopmental Disorders in 2025 with the Scientific Interest Group for Autism and Neurodevelopmental Disorders |
| 2021-present
2020-present | Member of the International Society for Autism Research |
| | Member of the thinking Group of Lay Associations for Science (GRAPS). Contribution to the organization of research days with the national Scientific Interest Group for Autism and Neurodevelopmental Disorders: |
| | <ul style="list-style-type: none"> - 4/06/2026: L'activité sportive comme levier de développement des personnes concernées par les TND - 30/05/2024: Mieux comprendre les situations complexes: travailler ensemble pour développer les capacités de chacun - 14/06/2022: Troubles du neurodéveloppement: apprendre tout au long de la vie - 10/06/2021: Troubles du sommeil et troubles du neurodéveloppement |
| 2023 | Contribution to the organization of the Science & Society event: Genre et perception sensorielle dans l'autisme et les troubles du neurodéveloppement, with Club Autisme & Vision, Paris, France (28/01/2023). |

Participation to the collective life of the lab

- | | |
|--------------|---|
| 2018-present | Methodology sharing : talks given to the lab on methodological topics, e.g., using R Markdown for open and reproducible science, Drift Diffusion Model (DDM), data transformation, and random effect structures in mixed models. |
| 2025 | Open science dissemination : I invited guest researchers from Louvain University and EPFL Lausanne to a lab meeting (Nov. 2025) to present Peer Community In, organizing a knowledge-sharing session. |
| 2023-2024 | LabTimes co-organization (recurrent scientific meetings at the LPNC; lead by PhD student and post-doctoral researchers) |
| 2019-2023 | Participation in hosting high school interns (Grade 11/12 = 3 ^e in France): presentation on autism and my ongoing work |
| 2019-2021 | Involvement in the development of the " Aspie Friendly " project for the integration of autistic students at University Grenoble Alpes (participation to meeting; feedback) |

SKILLS

Programming: R (Advanced), MATLAB (Basic)

Neuroimaging tools: Brainstorm (Intermediate), SPM (Beginner), FreeSurfer (Beginner)

Computing: Unix/Linux command line (Basic)

Writing: LaTeX (Overleaf) (Basic)

Languages: French (native), English (fluent)

COMMUNITY ENGAGEMENT

2019-
Present

Member of PAARI organization (Personnes Autistes pour une Auto-détermination Responsable et inovante) – co-pilot of the "Groupe Action & Projet Recherche Participative" - France

2013-
Present

Member of Autisme Bassin Lémanique
